Dear Families,

Chocolate Spread Sandwiches

As part of our commitment to keeping all children safe, we are writing to ask for your support regarding packed lunches.

We currently have a number of children in school with severe nut allergies, and it is essential that we take every possible precaution to minimise the risk of accidental exposure.

From now on, we kindly ask that chocolate spread sandwiches and other chocolate spread products are not brought into school. While some chocolate spreads do not contain nuts, others may contain nuts or be produced in environments where nuts are present. Unfortunately, it can be difficult for staff to identify which products are safe and which may pose a risk to children with nut allergies.

To ensure the safety and wellbeing of all children in our care, we have decided that chocolate spread products should not be brought into school.

We appreciate that this may require some adjustments to packed lunch choices, and we are grateful for your understanding and cooperation. By working together, we can help create a safe and inclusive environment for everyone.

If you have any questions or would like suggestions for alternative sandwich fillings, please do not hesitate to speak to a member of staff.

Thank you for your continued support.

Many thanks

Jo Jaloszynski
